Dobro došli na jednu od mojih internet stranica. Sa zadovoljstvom vam nudim na gledanje neke od mojih foto [albuma](#) ili [rodoslov](#) obitelji Orlovac.

Ove stranice su rezultat mojih hobija: fotografiranje, skupljanja genealogije obitelji te skupljanja starih satova i starih novčanica.

Welcome to one of my web sites. Please look at some of my photo [albums](#), or my [genealogy](#) research of family Orlovac.

These sites are result of my hobbies: photography, genealogy of my family and collecting of old clocks and banknotes.

My digital camera Nikon D70, gives me full freedom making photographs and unlimited experimental possibilities, that I use especially in macro photography.

I have become a happy owner of a beautiful old Gustav Becker Vienna Regulator Clock. The clock serial no. is [1460320](#) and was produced at the end of 19 century.
The clock is in working order and has a nice chime.
